### "Thinking Images": Video Essays and Videographic Works

The 22<sup>nd</sup> Tel Aviv International Student Film Festival

We are delighted to inform you that as part of the Tel-Aviv International Student Film Festival we are launching a program dedicated to Video Essays and Videographic Works. The festival will take place on June 21st – 27th, 2020 in Tel Aviv, Israel.

**The Videographic program, Thinking Images, will be part of the upcoming Tel Aviv International Student Film Festival, and hopes to provide a platform for the presentation of prominent and innovative examples of audiovisual essays and other videographic works, as a burgeoning form of scholarship in the 21st century, and encourage dialogue among the fields of film and media production, criticism and scholarship.**

The festival is an opportunity for young filmmakers from over 50 countries to present short innovative cinema, participate in gala screenings, masterclasses, conferences and special tributes. Each year the festival hosts over 70 film students and notable guests of honor such as Marcello Mastroianni, Emir Kusturica, Chantal Akerman, Jacque Audiard, the Dardenne Brothers and many more.

The videographic works selected for the Festival will be screened at the Tel Aviv Cinematheque during the week of the Festival. We are looking for works that are distinctive, and that use an innovative approach – in either the explanatory or poetic modes or anywhere in between – to express their ideas.
